The goal of our summer camps in CCTE is to allow students to engage and explore different areas of our CCTE Curriculum. Each camp will include hands-on activities, and students will walk away with excitement toward a new world of opportunity. Each camp has a focus on careers in that field.

**Space is limited and reservations will be held according to the date the application and payment are received.** Students accepted to summer camps will be notified by email and given additional information to prepare for the week. If you have questions, contact our camp director.

# *Emerging Careers Camp*

Girls Tackling Emerging Careers (TEC) camp will introduce girls to non-traditional careers for females. During the day you will plan and complete a variety of projects within the selected career and technology curriculum, participate in problem solving and team building activities. We will have lunch provided each day and will host a lunch and learn with dynamic women in non-traditional careers. If you want to know more about networking, communications, engineering, biotechnology, architecture, hospitality and tourism, and other fast-growing, high paying career fields, you need to sign up for this exciting opportunity. Our camp counselors are all WCS educators that show passion and creativity around their programs. During this camp, students will have field trips to Independence High School and Franklin High School (we will begin our day at the Entrepreneurship and Innovation Center and WCS Busses will transport us to the locations each day). Camp fees will include lunch each day, a t-shirt, and all supplies to explore non-traditional careers.
