

BS/RN School Nurse

Job Overview

The job of the School Nurse was established for the purposes of supporting the school staff/faculty in assessing the health needs of students and developing emergency care and individual health plans; ensuring compliance with laws relating to student health, including parental and guardian consent; providing care of ill, medically fragile and/or injured students; providing health information; serving as a resources to parents, teachers, staff, and administrators; and identifying health problems for referral for proper treatment

This job reports to the District Nursing Supervisor & School Site Principal.

Essential Functions

- Develops individual student health care and emergency care plans for students with special care needs for the purpose of providing direction to site personnel and/or implementing directions provided by parents and/or physicians.
- Implements health care plans for students with health problems for the purpose of meeting the needs of students with chronic health problems and/or accommodation requirements.
- Provides professional medical treatment for staff and students.
- Administers medical treatment including first aid, medication, and specialized medical treatments to staff/students to provide care for ill, medically fragile and/or injured children in accordance with State laws and District policies.
- Provides care for students with chronic illnesses and extremely high-risk students (e.g., allergies, asthma, diabetes, seizures, medical, fragile, etc.) for the purpose of assisting the child in achieving the highest possible functional level.
- Responds to emergency medical situations (e.g., severe falls, seizures, prescription reactions, bleeding, etc.) for the purpose of ensuring appropriate immediate medical attention and related follow-up action.
- Assesses situations involving students' safety, abuse (physical, sexual, drug, etc.) and other health related issues for the purpose of identifying problems, referring for proper treatment, and complying with legal requirements.
- Reports health and safety issues to assigned administrator and appropriate agencies (e.g., altercations, suspected child and/or substance abuse, contagious diseases, etc.) for the purpose of maintaining students' personal safety, a positive learning environment and complying with regulatory requirements and established guidelines.
- Document all student clinic visits and information changes to ensure accuracy in the electronic medical record.
- Participates in state mandated annual health screenings (e.g., vision, dental, hearing, etc.) for the purpose of referring medical conditions and/or providing appropriate care of ill, medically fragile, and injured children.
- Collaborates with agencies and school safety teams to conduct site assessments (e.g. health issues, student health records, emergency preparedness, building/grounds, etc.) and to provide recommendations for improving safety and accessibility.
- Collaborate with parents, students, teachers, staff, health care providers, and/or public agencies for the purpose of promoting and/or securing student health services, providing information, and complying with legal requirements.
- Counsel students and families on health conditions and lifestyle issues (e.g. mental health, pregnancy, sexually transmitted disease, substance abuse, etc.) for the purpose of facilitating a healthier student population.

- Communicate with school nurses regarding any issues that arise while on duty and serve as a liaison for support to local and public health authorities within the school setting.

Working Environment

This job is performed in a standard office environment and in a generally clean and healthy environment. Generally, the job requires 35% sitting, 35% walking, and 30% standing.
