ADDENDUM 3

To: Prospective Bidders
From: WCS Purchasing Department
Subject: **Addendum 3 RFB #1420 District Vehicles & Motorized Equipment**

Date: September 23, 2026

This Addendum becomes part of the solicitation documents for the above-referenced Request for Bids and shall be acknowledged as required in the bid submission.

Clarification of Vehicle Specifications

Williamson County Schools wishes to clarify that the vehicle specifications included in this solicitation are intended to identify the district's preferred and most desired equipment, features, and performance characteristics based on operational needs.

The specifications provided should be considered approximate and representative of the district's requirements and are not intended to restrict competition or limit bidding to a particular manufacturer, make, model, or brand.

Bidders may propose vehicles that contain minor deviations from the stated specifications provided that the proposed unit substantially meets the intended function, operational requirements, quality standards, and performance objectives of the district. Bidders must clearly identify deviations, expectations and substitutions on the item bid sheet.

The district reserves the right to determine whether any deviation is minor or material and to evaluate proposed alternatives based on overall suitability, functionality, operational value, and compliance with the intent of the specifications.

A vehicle will not be deemed non-responsive solely because of minor variances from the listed specifications when such variances do not materially affect the vehicle's ability to meet the district's needs.

All other terms, conditions, specifications, and requirements of the solicitation remain unchanged and in full force and effect.
