

WCS Chromebook Distribution and Support in On-Campus Learning for the 2020 - 2021 School Year

The following table provides specific guidance for Teachers and Parents for Chromebook distribution and Chromebook support when On-Campus.

Chromebook Distribution	<ul style="list-style-type: none">- For On-Campus learning, Chromebooks will be distributed to students in the same manner that textbooks are distributed.- Follet tags will be scanned and assigned to the student.- The <i>Acceptable Use and Internet Safety Agreement</i> must be signed, as well as the <i>Authorization for Distribution of District Digital Devices to Students</i> acknowledged, prior to issuing the Chromebooks. Both these documents can be found in Skyward by the parent prior to issuing the Chromebook.
Chromebook Support (On Campus)	<ul style="list-style-type: none">- For On-Campus learning, if a student experiences a problem with their Chromebook, they can take it to the media center for a quick fix by the IT Tech if available, or it will be replaced with the proper assignment made in the Follet system.
Chromebook Cleaning	<ul style="list-style-type: none">- Chromebooks may be cleaned only with a moist microfiber cloth with a mixture of 70% isopropyl alcohol / 30% water. The cloth should be damp, but not dripping wet. Excess moisture should be removed if the cloth is wet before wiping the product. Using any material other than a microfiber cloth could cause damage to your product.- Detailed cleaning instructions provided by Dell.
