

WCS Classroom Cleaning and Disinfection for the 2020 - 2021 School Year

The following table provides specific information to Parents on classroom cleaning and disinfection during the COVID-19 pandemic. Teachers and Staff will have additional responsibility for spot cleaning and disinfecting their individual work areas. Custodians will be responsible for cleaning and disinfecting their normal areas, with additional high-touch disinfection, and area disinfection as directed.

Custodian Duties	<ul style="list-style-type: none"> - Use and provide peroxide-based cleaning and disinfection products approved by the CDC's "List N". Peroxide-based disinfectants are less toxic than bleach or quaternary ammonia products and are preferred for childcare facilities. - Provide and replenish cleaning/disinfecting spray product and paper towels to all classrooms, admin areas, and nurse offices. - Provide, maintain, and restock stand-alone hand sanitizer stations - Hourly cleaning/disinfecting restrooms and restocking soap and paper products, as well as disinfecting of high touch areas. - Daily cleaning to include sweep, spot mop, spot clean desktops, vacuum carpets, empty trash, nightly disinfection of desks and chairs, and hallway locker touch surfaces. - Daily cleaning and disinfecting of high-touch areas to include counters, sinks, water fountains, doorknobs/handles/plates, door frames, push bars, light switches, all restroom brightwork and fixtures, handrails, etc. - Daily perform nightly electrostatic misting disinfection of hallways, lockers, and high touch areas. -Weekly cleaning to include mop, dust, horizontal surfaces, etc. -As needed, clean-up spills, messes, trash, etc.
Teachers and Staff Responsibilities	<ul style="list-style-type: none"> - Teachers will be provided with approved cleaning and disinfection products for additional disinfecting during the day at their discretion. -Special considerations should be made for students and/or staff with asthma or other health issues, and they should not be present when cleaning and disinfecting is happening as this can trigger asthma exacerbations.
Disinfection Protocol for a Positive COVID- 19 case	<ul style="list-style-type: none"> - Upon notification of a positive COVID-19 case, areas used by the affected person will be closed off. School staff will assist Health Department with contact tracing. - Custodians will wait 24 hours if possible before cleaning and disinfecting the affected areas. Once disinfected, the affected areas can be returned to service. - If the whole school must be disinfected, it will be closed for a minimum of 2 days.
